

## SAPLING DISTRIBUTION

Jasmine saplings are distributed to farmers from the PRASAD Chikitsa nursery. They will provide a much needed income when crops are sold at the markets.

## SCHOOL SHOES DISTRIBUTION

A new project (named 'Happy Feet') was implemented recently to give children footwear to walk to school. The joy at seeing the looks on the children's faces as they enthusiastically receive their first pair of shoes is so uplifting.

## WHAT'S NEXT FOR PRASAD CHIKITSA?

Our goals for the next year are to continue to deliver medical services and to provide nutritional support to 500 children at the village care centres.

Also, to assist 350 families start kitchen gardens and 200 families build much-needed toilets.

PRASAD Chikitsa will plant more than 20,000 trees and distribute 8000 jasmine saplings to farmers for market crops.

These are just some of the ongoing areas of support.

*The wide smiles on the faces of these women and the way they have so lovingly decorated the entry door clearly show the impact having a family toilet has made on their lives.*
